GENERAL CONDITIONS

The Price List is subject to fluctuations of the market, and is liable to alteration without notice.

All boards under lin. thick are quoted surface measurement; lin. thick and over are charged as ordinary superficial measurement.

Dressed timber is charged at size before dressing, and by the understood trade sizes; not by the finished sizes.

When ordering, give shortest lengths and narrowest widths to prevent waste, and avoid ordering fixed lengths as far as practicable.

Claims for alleged shortage, or inferior quality, will not be entertained unless notice is given within seven days of receipt of the goods.

To avoid delay and misunderstanding, first orders should be accompanied by a satisfactory business reference, or remittance to cover amount of order.

APPROXIMATE WEIGHT OF TIMBER

Hardwood, 360 ft. super. per ton weight.

Pine, 800 ft. super. per ton weight.
